

Cyber Insurance: Risk Management and Breach Response Service

Your access to Lloyd's & International Insurance Markets

Introduction

Cyber risk is becoming so complex and has so many different meanings to people in business, worldwide, that it is impossible to provide a one size fits all insurance product, with easily quantifiable sums insured. And for buyers it has become increasingly difficult to understand insurers' cyber products and what is covered.

To address this, at Chesterfield, we have developed a Cyber solution with Lloyd's underwriters. It is a 'pick your own' cyber policy concept in which relevant modules are selected according to your specific risk exposures.

Our flexible solution is specifically designed to cover cyber exposed businesses across a wide range of industry sectors.

Cyber modules

- Technology services
- Network interruption and recovery
- Electronic theft and computer fraud
- Network extortion
- Reputational damage
- Social fraud
- Privacy regulatory defence
- Loss support expense
- Security and Privacy liability
- Multimedia liability
- Non technology services

Further modular concept features

- Loss control education and training
- Online learning and resource
- Breach response
- Notification expense
- Forensic auditing
- Credit and Identity theft
- Loss management
- Legal Services

Each module consists of standard coverage, with an additional coverage section as required.
